

## **Stitch Day 27 April 2024**

There are some basic items it would be useful to bring. However, please don't buy anything, we will have sufficient materials for sharing.

### **Machine embroidery**

Embroidery frame approx. 8"/20cm

Fabric to fit your frame – several times over – quantity depends on how much stitching you want to do!

Machine threads

Your sewing machine with a darning foot and a small screw driver.

If you have them – top stitch or machine embroidery needles

Ruler and pen/pencil for marking your fabric

### **Embellisher/needle felter**

Base layer – soft, open weave fabrics, felt or boiled wool – jumpers that have shrunk in the wash are ideal. I have hot washed moth eaten jumpers to produce felt.

Felting wool, scraps of thread and yarn and small pieces of other fabric like silk, sheers, muslin etc to create designs.

### **Transfer Dyeing/printing**

Light weight paper such as copy paper

Paint brushes

Palette

Synthetic fabrics – anything from sheer to heavier weight

Any questions do get in touch.
